

Cake Recipe Android App (Android Studio)

Requirements:

The Cake Recipe app must:

1. Be created in **Android Studio**.
2. Be named **Cake Recipe**.
3. Display a list of at least **5 different cakes**.
4. Use the following components:
 - ScrollView
 - LinearLayout
 - ImageView
 - TextView
5. Each cake must show:
 - An image of the cake
 - The name of the cake
6. The list must be scrollable if it does not fit on the screen.
7. **Submit the xml code (you can copy and paste the xml code from **activity_main.xml** file on a word document and submit the word document)**
